

INETY

Climber

The Class of 1990 would like to express its appreciation to Mr. Robert Woods. Over the years he has done so much for us. In the eighth grade he was our History teacher and Class Advisor. This year we have known him as our Dean of Students. Throughout the years some of us have known him as our Coach, and he has always been our friend. Through his dedication we have grown into strong individuals and students. The Class of 1990 would like to thank Mr. Woods for all that he has done for us by dedicating this, our 1990 Climber, to him.

As we approach graduation, we begin to think about our ambitions and aspirations. Our education at WBHS has helped us to distinguish between obtainable goals and those that are intangible. Though some of our dreams may be too high to grasp, we will never put them out of our minds, and will try to reach as close to the sunshine as we possibly can.

Spring Street School West Bridgewater, Massachusetts 02379 Telephones: 586-5094 — 586-5097

#### TO THE CLASS OF 1990:

You have seen dramatic changes in the world during your senior year. The Berlin Wall has come down, Romania has voted for a democratic president, and a dictator in Panama has been disposed by the United States. Millions of lives have been changed in a dramatically short period of time.

How can you prepare for this rapid change? I suggest that you keep an open mind, tolerate people and things that are "different," maintain a positive attitude, and reflect upon your education in the West Bridgewater Schools. If we have taught you to read, write, compute, and analyze, you will be able to function in the rapidly changing world around you. Attempt to remain objective and take one step at a time. Good luck and may your lives be blessed with peace and happiness.

It has been a privilege for me to serve as your Superintendent of Schools. I have enjoyed working with you and my best wishes go with every member of the Class of 1990.

# ADMINISTRATION

To The Members of the Class of 1990

During your public school experience your parents, teachers, and administrators have played a major role in developing and implementing a blueprint for you to follow during these crucial formative and developmental years. Hopefully the result of our collective effort has been to provide you with a value system and skills that will render you more adaptable to our contemporary society as you experience your new found independence. If, as we believe, graduation from high school signifies a beginning as well as an end, it is incumbent upon you to formulate an entry plan for life's next phase that will help you realize your goals and ambitions.

As your establish your route for your next journey through life, carry with you the fond memories of the many friends you made and the happy times you enjoyed and look to the future with anticipation of the good things to come.

Best wishes, thank you for your many contributions to West Bridgewater Junior-Senior High School and congratulations upon your graduation.

## S. Erick Benson

In my new position as Dean of Students I have gotten to know you once again, this time as seniors. You have come a long way since I first met you as eighth graders. At that time you showed a great deal of exuberance in the classroom and tremendous spirit for the cause of the first Rock-a-thon. Now you are ready to leave us and enter another phase of your lives. May you show this same spirit as you face the future where many exciting opportunities await you. Accept the challenges, enjoy them, and always strive to become the very best that you can be. Our association has been a pleasure to me. My very best wishes to all of you for a satisfying and happy life.

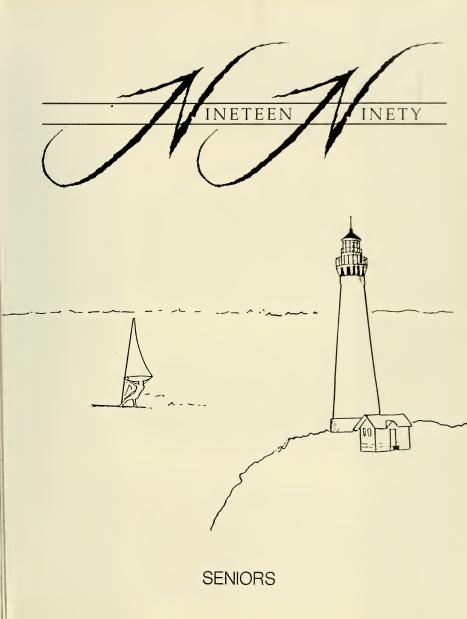

Sincerely,

Robert C. Woods

"It was William Shakespeare who told us that all the world is a stage and that all the people on it are players. How very true it is, and how picturesque the thought. The world is our stage and you and I have been chosen to play some part in the unfolding drama of life. Maybe at the moment, the stage you find yourself on is a very poor one, and maybe the part you are asked to play doesn't offer the opportunity for the best that is in you. Maybe you know you are worthy of a better, a more important part. And maybe you are. But don't quit. Don't walk out on the play. Whatever part you are asked to fill, fill it with the best you've got. You see, always there are talent scouts standing in the wings watching. The world needs those who play the small parts, for usually it is to those who play them well that the larger more important parts are given.

It is just common sense. If you don't play the small parts well, who would choose you for the big parts? Wherever you are, whatever your part is, play it like a veteran, because on that stage you are being trained for the bigger parts. If we do the best we can with the opportunities that are ours, bigger and better ones will be offered." Harold J. Drown I wish you success and much happiness.

'How natural it is to destroy what we cannot possess, to deny what we do not understand, and to insult what we envy!" (Honore de Balzac) Homeless People

We turn our heads in shame and walk away in disgust . . We try to forget .. We aren't doing a thing .. Just like those on the streets. WAR

We make more weapons, in hope of overpowering the other country. We don't want anymore war . . . Then why so many new weapons? Racism

Colors . Colors They are here to make this world beautiful ... Why so many problems when the color is on a person?

1989 marked the first time in WB history that our Varsity Baseball Team ever won a game in the State tournament. It was a triumphant season, but it didn't start that way. At mid-season we were 1-5 and it would have been easy to give up. But Coach Ohlson wouldn't let us. We'd like to thank him for believing in us. We couldn't have done it without him.

"Ticking away the moments
that make up a dull day,
you fritter and waste the hours
in an offhand way.
Kicking around on a piece of ground
in your home town,
waiting for someone to show you the way.
Tired of lying in the sunshine
and staying home to watch the rain.
You are young and life is long
and there is time to kill today.
And then one day you find
ten years have got behind you,
no one told you when to run,
You missed the starting gun."
